We launched in 2001 and are now one of the TOP 100 Independent Brokers in the UK. Insurers, with their demanding targets, like the way we do business and the fact that we understand their underwriting approach. That way we don't waste their time, or yours.

We will work closely with you to establish and understand your requirements and then identify exactly the right panel of insurers to approach for terms. Insurers respond positively to this selective process and the quotations we obtain are consistently highly competitive.

Solicitors' Professional Indemnity Insurance (PI)

We are on the broker panels for all leading PI markets and have access to underwriters specialising in different types and sizes of practice. We know how to best present your business for quotation and will provide you with access to best practice guidelines and risk management expertise that could help reduce your premium.

Partnership Protection Insurance

As the responsibilities of Partners and Officers become more demanding and onerous, there is an increasing need for this type of cover. One legal minefield, for example, is employment legislation, where protection of your personal assets in the event of a dispute should be a high priority.

Even vehicles owned by partners can be included
